Schenectady, N. Y., September 20, 1922.

.....At this time I want to AGAIN congratulate you on the trueness of your stock, as even some large Betrix I got from.....turned out mostly Herada.

A large number of No. 6 Herada, Kirtland, Dr. Norton, and Schwaben gave me salable spikes.

Respectfully yours,

J. B.

NOTE that this Grower produced salable spikes from a large number of OUR No. 6 bulbs.

We grade by hand, and all our No. 6 size are plump and firm and will grow and produce results. Do not hesitate to purchase No. 6 size.
